- PABX | IP-PABX
- Video Conferencing
- TV Broadcasting
- Marine Communication

SECURITY

- CCTV | IP CCTV
- Access Control
- UTM | Firewall
- Content Filtering

INFRASTRUCTURE

- Data Centre
- Fiber Optics Project
- Structured Cabling
- Computer Rooms

Synopsis

KITS TECHNOLOGIES LIMITED is an Information and Communication Technology (ICT) Consultancy Company, the company was founded by a group of indigenous ICT experts, with the idea of offering high-end professional solutions in deploying productive emerging technologies and redeveloping customers' information systems in line with constantly changing environment and requirements.

Business Focus

KITS TECHNOLOGIES offers ICT solutions that address business challenges. Our aim is to provide total end- to-end ICT VAD & system Integration solution; focusing on Data, Voice and Video Networks (DVV).

Our team of professionals are experts with extensive experience in designing, implementing and advising our esteemed clients on ICT solutions which include; Data Centre Design, Deployment & Audit, ISP setup, Satellite Communication & Direct satellite "Broadband" Internet (VSAT), Wireless Communications (wimax, wifi, Microwaves), Fiber Optics Project Implementation, Structured Cabling system development & implementation, Networking – WAN, MAN & LAN, Network security & Monitoring, VPN, High-end Server implementation , Administration & Management, IP Surveillance, environmental electronics security, Access control & Intrusion detection solutions, Voice Over Internet protocol (VoIP) solutions, Data Storage - Protection & Recovery solutions, Electronics Queue Management System (EQMS), Information Display System (IDS), System specifications / System Engineering & System Integration, ICT consultancy and Technical Education.

KITS technologies believes strongly in the I , We and You model.

I – KITS has maintained commitment to improving individual staff (I) output quality in a way that will guarantee the quality of services that will surpass customer's expectation.

We - KITS' determined focus on individual staff has maintained its effective team (We) . We believe strongly in team spirit. - "KITSPirit"

You – The strength of our individual staff and the synergy of our team in collective spirit has remained our major strength in adding premium values to our customers' business by differentiating our solutions / services offerings in manners that clearly improves our customers' operating expenses, and that the customer (You) will continue to admit that KITS is indeed his kited ICT partner.

Vision

“KITS TECHNOLOGIES will be known globally as center for international and local contacts for ICT project development & implementation as well as center for transfer of knowledge, experience and expertise”.

Mission

“To maintain ICT professionalism in deploying our products and services with focus on excellence, integrity and affordability”

Therefore, KITS TECHNOLOGIES plans to maintain its position as center for international and local contacts, for project development & implementation as well as center for transfer of knowledge, experience and expertise. Our mission shall be sustained through life-long learning and training of KITS TECHNOLOGIES' staff, and through nurturing partnership relations with its present and prospective clients while maintaining close and direct links to its main international partners.

[Values]

In all our relationships, we shall continue to demonstrate our steadfast commitment to:

SERVICE – We are aware that great “service” is key to Customer Satisfaction. We put our utmost to achieve total customer satisfaction by understanding what the customer wants and delivering it without blemish.

INTEGRITY – Integrity is our watchword. Our customers will always experience the highest level of ethical standards by paying special attention to honor our commitments. We take personal responsibility for our actions, and treat everyone fairly and with trust and respect.

PROFESSIONALISM – We maintain competent team that respects professional ethics in delivering our products and service to world-class standards all the time.

EXCELLENCE – We are committed to Excellence in all our product / services delivery, we integrate excellence through the power of absolute commitment and lifelong learning; we deliver the best that can be delivered all the time.

Corporate Social Responsibility

6

KITS Technologies sees social responsibility as one of its civic responsibility and a great opportunity to positively impact on the society for sustainable development as a responsible corporate organization.

In the last 10years, KITS has developed comprehensive, latest and relevant ICT industry technology-focused courses with the primary aim of sharing our knowledge, experience and expertise with the Nigerian youth, and have trained over 4,500 individuals "tuition FREE". The courses are specially designed to empower fresh graduates and other beginners to become relevant and responsible professionals in the society, transforming them into expert professionals in IT/ Telecoms engineering.

Products & Services

KITS Technologies provides total end-to-end ICT System Integration solution; focusing on Data, Voice and Video Networks. Our competency covers but not limited to the following:

■ Data Centre Implementation

KITS Technologies specializes in the Design, Implementation, Operation and Audit of Data Centre. KITS design process includes; Site (suitability - EMC, flood etc.), Building (Suitability – size, strength etc.), Power (UPS, switchgear, generators etc.) HVAC analysis, Work space, Cabling design, Fire protection, Security and access control, Reliability, resilience and business continuity (N, N+1 or 2N designs) across all tiers and classes. KITS focuses on the most relevant cost versus risk model that gives the best value for your Data Centre investment.

■ Satellite communications – VSAT

KITS Technologies delivers a wide range of business applications sparked by the strength of Satellite technology. Our VSAT connectivity solutions provides ISP's, telcos, universities and large organizations unfettered access to the Internet backbone, providing them with high-performance links.

■ Fiber Optics Project Implementation

KITS technologies provides end-to-end Professional Fiber Optics infrastructural / engineering turnkey services; KITS offerings include premise & OSP Long-Distance Fiber Optics turnkey projects implementation, Optical Fibre Cabling (OFC), Network Design, Installation (OSP and Premise), Fiber Optics Repairs, Restorations and Maintenance. KITS' offering covers small, medium and enterprise Fiber Optics projects.

■ Video Conferencing

Video Tele-conferencing system (VTC) has become a way of life for today's enterprise; in terms of real remote communication. Whether the goal is time to market, or efficient decision making, KITS Technologies has sophisticated and cost-effective Video conferencing solution for you and your business.

■ TV Broadcasting

KITS Technologies delivers your content effectively using the latest and most advanced technology. Our broadcast services seamlessly connect the broadcaster to the viewer. From managing your content to finding the best satellite platform for distribution or contribution of your signal to uplink/downlink mobile broadcast and turnaround, KITS technologies provides the highest quality of services for all your broadcast needs

■ IP PBX & PABX Satellite Phone System

KITS Technologies offers a wide range of Telecom Solution covering Voice Switching, Voice Messaging and VoIP solutions. We offer a complete range of IP PBX/PABX and wide range of mobile & fixed satellite telephony solutions for enterprise-wide application including military, maritime & security.

■ Network Security UTM

KITS Technologies offers best rated Network Security solutions (Unified Threat Management -UTM) that delivers breakthrough performance for various network environment, ranging from Internet, Intranet/Extranet, LAN/WAN, VPN and Data Centre protection with maximum security while optimizing network performance.

KITS' solutions covers Firewalls Traffic Shaping, QoS, IPSec/SSL, IDS/IPS, Web filters, Virus filters, Real-time spam detection, HTTPs proxy, Bandwidth management, and VPN Crypto acceleration.

■ Premises Security: Access Control & Surveillance

With KITS technologies' Digital IP Heavy Duty Surveillance and Access control solutions, security concerns of Pipelines, Borders, Airports, Government buildings, offices, Parking garages, etc, have become a thing of the past. KITS' sophisticated solution covers: Face Recognition, Fire Detection Camera, Full HD IP camera, Turnstile AntiVandal IP IR camera, License Plate Recognition, Long Range Surveillance, Vehicle Surveillance, etc as well as enterprise Multi-Biometric Door / Gates Access Control, Turnstile, Vehicle Access control Barriers & Time Attendance solutions.

■ Data Storage & disaster recovery (Network)

KITS Technologies offers a comprehensive range of proactive Data Storage services—from Network Data management, protection to disaster recovery, including remote offsite backup and server replication.

- Broadband Wireless communications solutions

KITS Technologies offers a wide range of Broadband Wireless communications solutions, from High Capacity wireless backhauling to Public Hot Spot Wifi and Last mile Access covering Voice, data, Video communication as well as Internet distribution

- Structured Cabling System

KITS Technologies' cabling specialist team has the skill, experience and resources to design, install, test and manage your Cabling infrastructure (Optical Fibre cabling (OFC) and Copper cabling) to the latest industry standard. KITS' offering covers small, medium and enterprise Structure Cabling projects.

- Electronic Queue Management solution (EQMS)

Our Queue Management Solution is designed not only to address all your challenges regarding customer flow, but also will help create an environment where customers can feel at home even while waiting. With our EQMS, you can now reduce customer-waiting time, kill employee idle time, delight customers, monitor remote branch office performance and create a unique customer experience.

The solution is ideal for Banks, Telecom Service Centers, Government Institutions, Hospitals, Retail, Airlines, Embassies or any other organization, which encounters heavy flow of customers.

Information Display System (IDS)

KITS technologies' wide range of Digital Signage (Information Display System - IDS) comes in various forms including: LCDs, LEDs and Plasma Displays. No matter what you want to display, we have the right solution for you. Your entire wall could be converted to a video wall if so desired. Our IDS solution is ideal for Banks, Stock /Commodity Exchanges, Indoor & Outdoor Advertisement, Surveillance control rooms, Transport, Sport and Entertainment, Malls and Retail, Restaurant, Telecom Service Centers, Government Institutions, Airlines, Embassies or any organization who want to utilize the sharp and loud advertisement power of Digital billboards to drive his campaign.

Technical Education

Begin an integral part of our Vision, (...to be known as center for transfer of knowledge, experience and expertise) KITS Technical Education Program (KTEP) is designed to provide ongoing professional and continuously improved courses developed to reflect the latest industry leading information and communications technology (ICT) solutions globally.

Consultancy & Business Solutions

KITS Technologies offers series of cutting edge ICT solutions for various environment and requirement ranging from ICT infrastructure development, Mobile Computing to System Automation. More importantly, KITS technologies listens to your unique needs and work with you to build a value adding ICT solution for your environment in a style that will suite your requirement.

Certifications

Awards

KITS TECHNOLOGIES LIMITED has received a number of unique commendations and awards since it was incorporated. A few of the list are as follows:

- Best VSAT Partner In Nigeria (IPPlanet Network) - 2003/2004
- Best VSAT Partner In Nigeria (Gilat/IPPlanet) - 2004/2005
- NCC Award – Commendation In recognition of professional excellence in project delivery – 2005
- Best VSAT Partner In Nigeria (Gilat /IPPlanet) - 2005/2006
